BACKGROUND FACTS

9. In the 1950's, the British Motor Corporation (BMC) designed a lightweight military

vehicle for the British Army. The army rejected the design, so BMC commercialized a civilian version of the Moke, which appeared in 1964 as the Mini Moke.

10. From 1973 to 1976, a model known as the Leyland Moke was sold, and from 1976 to 1981, the Moke Californian model was produced. Beginning in 1980, BMC's Portuguese subsidiary manufactured the Moke vehicle.

11. Ming International Holdings Limited ("Ming") began selling the Moke vehicle in 2014, which was redesigned and re-engineered by renowned British designer Michael Young.

12. In September, 2015, Moke International purchased the assets of Ming International Holdings Limited, including all of its fixed plant machinery, molds, intellectual property rights, including its trademark portfolio, and its rights in the Moke product designs.

13. Moke International is the owner of approximately 90 international trademark registrations for "MOKE" related marks on vehicles and other goods. In addition, numerous trademark applications are pending.

14. Moke-branded and designed vehicles were manufactured under contract for Moke International by the Wu Hu Hong Liang Vehicle Manufacturing Co. Ltd ("Wu Hu") in Wuhu Shi, Anhui Province, China.

15. Wu Hu and Moke International entered into an exclusive manufacturing agreement in September 2015 in which Wu Hu acknowledged that Moke International owns all rights and interest in the Moke and owns absolutely all molds, designs and all parts produced by Wu Hu for the Moke vehicle.

16. Upon information and belief, Moke America has arranged for the use of the molds in the manufacture of its own Moke branded vehicles, in violation of Moke International's exclusive rights in the molds.

17. Moke International has not authorized Wu Hu or any other entity to utilize its proprietary molds and/or design specifications for the manufacture of “Moke” vehicles for any entity other than Moke International.

18. Further, Moke International has not authorized Moke America’s purchase, importation and/or sale of any vehicle manufactured with the use of Moke International’s molds at the Wu Hu factory or any other facility, utilizing the molds, design and/or specifications owned by Moke International (such vehicles are collectively referred to hereinafter as “Unauthorized Moke Vehicle(s)”).

19. By letter dated March 28, 2017, Moke America was notified of the contractual relationship between Moke International and Wu Hu, and of Moke International’s ownership of the molds and designs.

20. Notwithstanding the notification, upon information and belief, Moke America has continued to utilize Moke International’s molds, designs and/or specifications to manufacture and import into the United States Unauthorized Moke Vehicles for sale in the United States.

21. Moke America’s sale, offering for sale, distribution, and advertising of the Unauthorized Moke Vehicles in the United States in connection with the MOKE Mark (defined below) creates a likelihood of confusion and mistake among customers and the public as to the source of the Unauthorized Moke Vehicles.

22. Moke America’s sale, offering for sale, distribution, and advertising of the Unauthorized Moke Vehicles in the United States in connection with the MOKE Mark is intended to trade upon the goodwill and substantial recognition associated with the MOKE Mark used on or in connection with the aforementioned Moke branded vehicles manufactured by Wu Hu for Moke International pursuant to the exclusive manufacturing agreement.

23. Upon information and belief, Moke America's Unauthorized Moke Vehicles are imported into the United States in violation of several importation regulations, Federal Motor Vehicle Safety Standards (FMVSS), including No.'s 500 and 209.

24. Upon information and belief, Moke America's Unauthorized Moke Vehicles are in violation of 18 USC Sec. 542 because they are imported based upon the false statements by declaring them as "semi completed vehicles/golf carts", when they are neither.

25. Upon information and belief, Moke America is using a third party to illegally provide false VIN numbers on the Unauthorized Moke Vehicles, without authority or eligibility.

26. As a result of Moke America's illegal importation, FMVSS violations and/or illegal VIN numbers, the use of the MOKE Mark in association with the Unauthorized Moke Vehicles is not lawful commercial use that can establish priority for trademark rights.

The MOKE Trademarks and Applications

27. On June 12, 2019, ACG assigned all rights, title and interest to Moke USA, in and to U.S. Trademark Application No. 76718389 for the mark  (the "MOKE Mark") filed on August 27, 2015 covering "Motor vehicles, namely, four wheel low speed land vehicles and automobiles" in Class 12 ("the First Assignment"). The First Assignment was recorded with the USPTO on February 27, 2020 at Reel/Frame No. 6877/0345. A copy of the First Assignment is attached hereto as Exhibit A.

28. The First Assignment transferred all federal and common law rights in the MOKE Mark, together with the goodwill and business inherent therein to Moke USA. As a result, Moke USA became the legal owner of the associated rights in the MOKE Mark and pending applications.

29. Pursuant to a February 3, 2017 License Agreement between ACG and Moke USA, prior to the Assignment, Moke USA was the exclusive licensee of the MOKE Mark, with the rights, amongst other things, to manufacture and sell products bearing the MOKE Mark.

30. On February 3, 2017 ACG and Moke USA also entered into a Trademark Co-Existence Agreement whereby Moke USA and ACG agreed to jointly use the MOKE Mark in connection with their respective goods.

31. Moke America subsequently filed two trademark applications with the United States Patent and Trademark Office (“USPTO”), for the mark “MOKE,” U.S. Trademark Application No. 87189563 filed on September 30, 2016 covering “Cars; Electric cars” in Class 12, and the mark “MOKE AMERICA,” U.S. Trademark Application No. 88035721 filed on July 12, 2018 covering “Motor vehicles, namely, four wheel low speed land vehicles and automobiles; Land vehicles, namely, low-speed electric vehicles; Four-wheeled motor vehicles” in Class 12.

32. On January 25, 2017, Moke America filed a Notice of Opposition (Opposition No. 91233014) with the Trademark Trial and Appeal Board (“TTAB”) opposing the registration of Moke USA’s pending Application No. 7671389 for the MOKE Mark claiming priority of use and likelihood of confusion, and asserting it would be damaged by the registration of Moke USA’s MOKE Mark (the “Opposition”).

33. On April 21, 2020, the TTAB dismissed the Opposition holding that Moke America failed to prove prior use of the MOKE trademark. The TTAB did not reach the merits of the likelihood of confusion claim because, without proof of priority, Opposer could not prevail.

34. On April 29, 2021, Moke USA assigned all rights, title and interest to Moke

International Limited, in and to U.S. Trademark Application No. Application No. 76718389 for the mark , filed on August 27, 2015 covering “Motor vehicles, namely, four wheel low speed land vehicles and automobiles” in Class 12 (“the Second Assignment”). A copy of the Second Assignment is attached hereto as Exhibit B.

35. The Second Assignment transferred all federal and common law rights in the MOKE Mark, together with the goodwill and business inherent therein to Moke International Limited. As a result, Moke International Limited became the legal owner of the associated rights in the MOKE Mark and pending applications.

36. In addition to the MOKE Mark at issue in the Opposition, MOKE USA also owned the following trademark registration and trademark applications which are pending before the USPTO for the mark “MOKE” in various classes of goods. The registration and applications are as follows:

a. U.S. Trademark Registration No. 6080434 for the mark MOKE registered on June 16, 2020, covering “Sunglasses” in Class 9;

b. U.S. Trademark Application No. 87334966 for the mark MOKE filed on February 14, 2017 covering “Motor vehicles, namely, high speed gas powered vehicles and high speed electric vehicles” in Class 12; and

c. U.S. Trademark Application No. 88011396 for the mark MOKE filed on June 22, 2018 covering “Clothing, namely, shirts and tops, polo shirts, sweaters, sweatshirts, coats and jackets, gloves, sleepwear, pants; headwear; footwear” in Class 12.

37. As a result of the Second Assignment, Moke International became the legal owner of all federal and common law rights in the registrations and applications described above, together

with the goodwill and business inherent therein, and Moke International became the legal owner of the associated rights in those registrations and applications.

The Copyrighted Works

37. Moke International is the owner of numerous copyrights for various photographic images of MOKE vehicles (the “Subject Works”), examples of which can be seen on their website <http://mokeinternational.com/> .

38. The Subject Works were created by Moke International in Saint Barthélemy (“St. Bart’s”), an overseas collectivity of France, over which France has governing authority.

39. The Berne Convention for the Protection of Literary and Artistic Works of 1886 and as revised (the “Berne Convention”) requires its signatories to recognize the copyright of works of authors from other signatory countries in the same way as it recognizes the copyright of its own nationals.

40. In addition to establishing a system of equal treatment regarding copyright amongst signatories, the agreement also required member states to provide strong minimum standards for copyright law.

41. France became a signatory member of the Berne Convention on December 5, 1887.

42. The United States of America became a signatory member of the Berne Convention on March 1, 1989.

44. Under the Berne Convention law, Copyright arises automatically by the mere act of creation. To qualify for protection, no registration is required.

45. Additionally, the Berne Convention does not require Plaintiffs-in-Counterclaim obtain a copyright registration for the Subject Works from the United States Copyright Office or any other copyright office where the Subject Works have been published, as a pre-requisite for copyright protection.

46. Moke International, is the owner of all respective rights, titles, interest, and copyrights in the Subject Work.
